About me

Full stack Developer with multiple skills including multitasking, organization, and collaboration. Motivated, enthusiastic, eager to learn and great team player.

My goals are to learn a variety of skills within the field of programming and work toward deciding what area of specialization I want to take. Currently training on automation testing and seeking exciting and educational opportunities to grow as a professional

Skills

ASP.NET MVC - C#

Javascript

SQL

HTML-CSS

Testing

Front End Frameworks(React-Angular)

(*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]
